JIMMY SAVILE WAS PART OF SATANIC RING

By James Fielding

JIMMY SAVILE beat and raped a 12-year-old girl during a secret satanic ritual in a hospital.

The perverted star wore a hooded robe and mask as he abused the terrified victim in a candle-lit basement.

He also chanted "Hail Satan" in Latin as other paedophile devil worshippers joined in and assaulted the girl at Stoke Mandeville Hospital in Buckinghamshire. The attack, which happened in 1975, shines a sinister new light on the former DJ's 54-year reign of terror.
