***Dear Mr. Crompton,***

***I hope this email finds you well, in good spirit and having a good day.***

***On Monday afternoon, I hand delivered a letter addressed to you at the reception at headquarters. This was timed at 3:15 pm precisely. Outside headquarters, seven blasts of the Shofar were sounded.***

***Besides sounding at HQ, the rams horn blasts were heard outside Snig Hill, Sheffield City Council, HSBC Griffin House, G4S, the Medico Legal Centre and Hillsborough Stadium at the gates and turnstiles of Leppings Lane. My letter gives a hint as to why I am being called to action in this way. Please take heed, upon God's instruction, before an obedient Joshua, the walls of Jericho fell to this sound.***

***I am fully aware that, to unbelievers, my action in blowing the shofar will seem strange, if not crazy to them, but I am calling upon The Creator to help me bring down the deafening wall of silence, and stop the "stone-walling" and cover-up of the historical corruption within SYP, and free you all to let the truth be known, and to apologise and wash yourselves clean at last, and mend your ways.***

***Regards***

***Tony***
