

It's Ok Tony, I have had wonderful news.

Mark Windows wasted no time at all in coming to Richard J Hannah's immediate defence!

Tony,

Its fine. I'll take the publicity leave my images up I have had a whole load of emails from old mates of yours in the Conspiracy sites, I think you know them Mark, Kevin and others. I hadn't appreciated that this was oooooold news and that you and Seven were debunked. People apparently worked it out for themselves, I am 11 years too late. All I can do is have some fun with it. I read the document you said was evidence, no wonder it was struck out and no award or enforcement was given. Seven highlights Format conversion and says this is how be converted her shows into many formats...it's gotta be one of the funniest things I have ever heard. To let you in on the joke Clarion was a production house - format conversions are changing say an avi to Mpeg or a VHS to a digital CD or turning a YouTube Video clip into an MP3.

Listen, its Easter, have a wonderful time - I am away on holiday for three weeks but please, please, please keep on calling me name its great material for the show.

Bless you fella

Ric xx
