Lisa I remember was a law graduate. That's like bringing a water pistol to a gunfight. The documents produced protected nothing. Now Susanah Hills who shared a TV show called 're Vision, did her homework and end up getting a show put on. She produced a proper document. Protecting image rights, show format, branding, time boxing the commitment and tying down all of us. She had the first conscripted and plan for a pilot. That's an experienced professional. She went to a proper lawyer made us sign because she had detail and not vague concepts.

Lisa is the nutter who claimed that I sent a pic of myself as the mayor complete with mayoral chain. The only bit of her statement that was correct was that those who were at the open day were hostile. We were Seven was a complete idiot, knew nothing about the business and to a man we wish she had not attended. There were other hopefuls who missed commissions.
