Tony,

The reason I say publish your stuff is that your interpretation is not an interpretation that anyone else would take. Tenacious comment is the case in point.

No one but a complete fool would interpret that as a threat. It was a joke, underpinned by the comment beneath it and here is the detail you missed again, Tony. Seven is copied in. She is not the principal recipient. She is specifically referred to with regard to attending the event only. Her formats are not mentioned only Re Vision by Susannah is. Anybody, worth his salt would see that. The email is written to Tony Orwin and Susannah and every body has picked that up but you.

Let's stay with the indictments you provided now I am on a roll.

You claim that our brochure demonstrates how we converted the tv formats. Again foolishness that any tv professional would spot..it refers to changing the physical media. Wow I am shaking with awe at Sevens knowledge.

Yes please lets see the docs without the seven commentary and let ordinary people decide. Release the debt summoned too and the court case details so people can look for the official record. No crosswalks about the record being expunged. You are 55 use your head fella if there are material facts that are just incorrect e.g. wrong Helen Alexander. How does it hang together.

Tony you are wrong! Have the good grace to apologise.

By the way I have a great deal more credibility with the policeman than you ever did and the fact you don't know why, tells me how little research you have done.
